

# Love Is All Around Us

God is love.  
(1 John 4:8 KJV)

Love is a wonderful thing, and that is because love comes from God, because God is love. When we receive love, we are experiencing a little bit of God.

God made love  
to be a special  
part of our world.  
Love is something  
that we all need.  
We know love  
through the hugs  
and kisses we get  
from our parents,  
from the loving  
care of family  
and friends, and  
in the ways that  
others think of us  
and speak to us.  
There are so many  
ways we can see  
and feel love all  
around us.

If we look at the beautiful world around us, we can catch a little view of God's love for us, too. He created everything, and through His creation we can appreciate His love.

When love has a leading part in our lives, everything is better. The love we live and show to others is a reflection of God in our lives.

# Action

Stand up and get ready to hop. Hop once, then thank God for His love for you. Hop again and tell someone in your family how much you love him or her. Then hop and tell God about your love for Him. Hop again and say something loving to one of your family. Do this until you have said something loving to each person in your family.
