

Just follow Me

My Little Talks
with Jesus

Have you ever enjoyed watching a long train with many cars chugging down the train track? I am like the engine at the front pulling the train forward and leading the way, and you are like a train car hooked on behind me.

As you follow My example of being loving and kind, you will stay safely on My track. Together we can move in the right direction, stay safe, discover new friendships, and put smiles on people's faces.

*When I follow Jesus closely,
He can keep me safe and happy.*
