

Look on the bright side

Have you ever been walking when something caught your eye? Perhaps a pebble glittered in the sunlight, but when you took a closer look, most of the pebble was covered with dirt, bugs, and bits of plants. The pebble did not seem to look that nice. However, you know that if the dirt is brushed off and the stone is washed, all the beauty of the stone will be easy to see, and it will make a perfect addition to your rock collection.

During your day, you may face things that don't seem that nice or beautiful at first. Maybe something you were looking forward to did not happen, or you had an accident while playing, or you had to learn something new that was difficult for you. When you're faced with these difficulties, ask Me to help you look for the bright side of what's happening. I can help you see the good, and it will make it easier to face the challenges of your day.

*I'll look on the bright side when things make me sad,
Soon I'll find plenty of reasons to be glad!*
