

11 Reasons for Investing in Your Education

Education is important because:

1. A good education will enhance and broaden your usefulness for Jesus and society, no matter what career you choose in life.

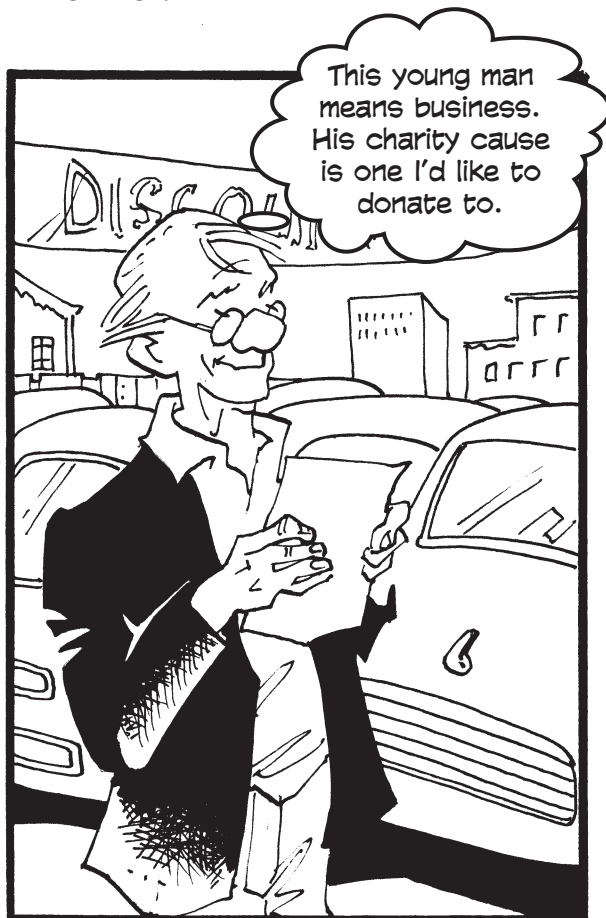

2. Having a good education and being skilled in several areas will enable you to have opportunities that you wouldn't otherwise have.

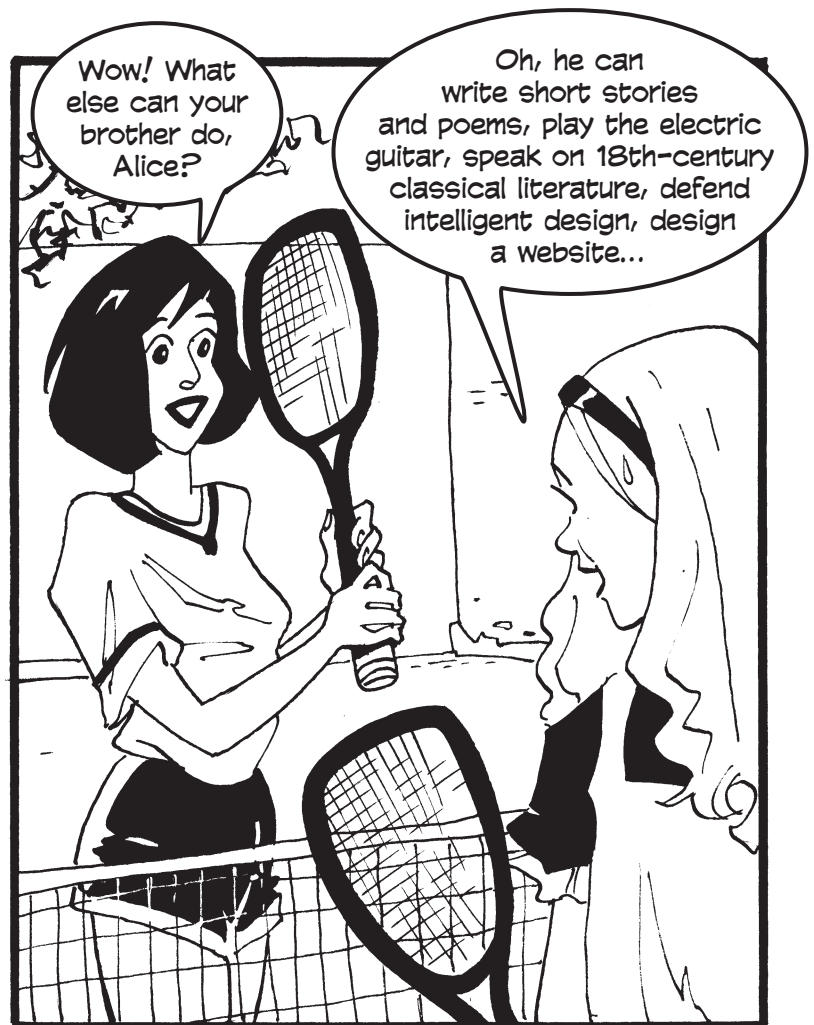

3. A good education will help you better relate to colleagues and professionals, as well as earn their respect.

4. It will make you well rounded, and successful in presentation. Nothing succeeds like success. People want to help those who are going places.

5. It will make you more versatile in your skills and knowledge base.

6. A good education reflects well on your self-discipline and priorities as an individual.

A well-rounded Christian education includes the following:

Academic education: Schooling in the core academic areas of mathematics, language arts, social studies, the sciences, and the arts.

Life skills: The skills necessary for successful living, which include daily living skills, personal health and development, physical education, skills training, social skills, extracurricular activities, and career preparation.

Character building: Moral instruction that is based on Christian ethics and virtues, such as integrity, problem solving, compassion, responsibility, respect, self-discipline, perseverance, and leadership.

Christian life and faith: Foundation principles of the Bible and Christianity. Developing a personal relationship with Jesus and His Word, learning to share God's love and message with others.

7. Studying teaches you self-discipline and accountability.

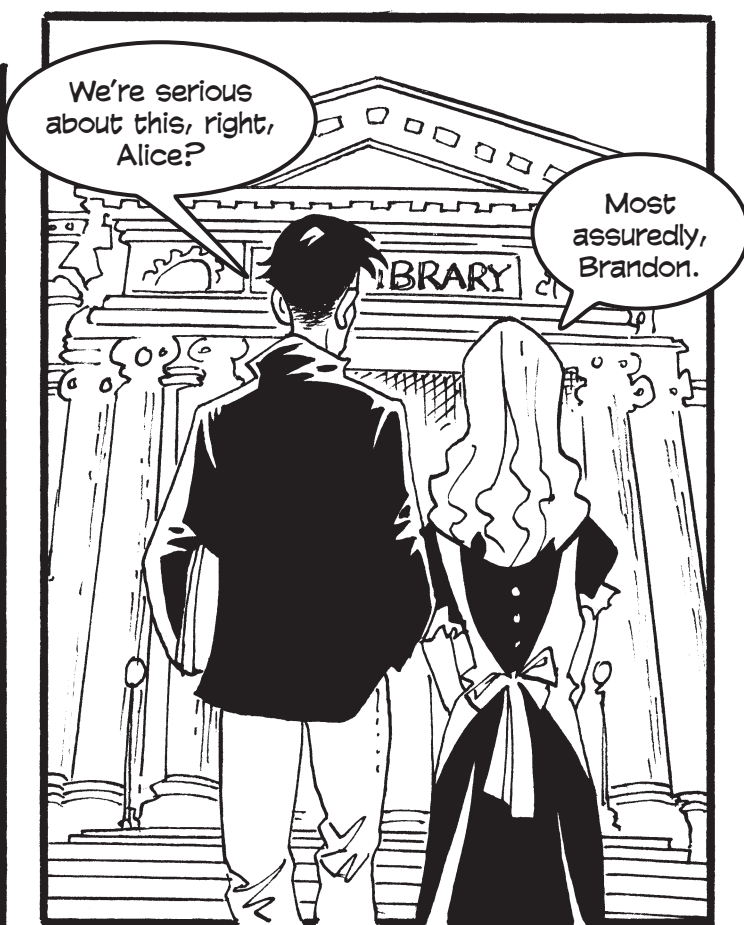

8. Studying teaches you how to process information in a constructive, useful way, and aids you in learning how to remember facts and figures.

9. Studying teaches you how to set goals and achieve them.

10. Studying helps you to learn about yourself—your interests, the way you think, your study habits.

11. Studying teaches you how to find the information you need, where to look for it, and how to process it.

Learning involves seeing life, the world, and the secrets and marvels contained therein as a treasure vault that you have the privilege of opening and exploring.
