

DAYS FILLED WITH JOY

You can find joy in the blessings that fill your life. When you take time to notice and thank Me for the goodness that fills your life, your heart will experience more happiness.

No matter how your day is going, I can bring you joy. Even when you are having a difficult time with something, you can talk to Me, and My joy will fill your heart. I can help you to see the good even in difficult situations.

I am always close to you. Just talk to Me,
and let Me share in your day. When you
trust in Me and include Me in this way, I will
be your source of hope and happiness,
and then I can fill your day with My joy!¹
